USUA Club 162

August 3, 2003: The club decided that the August meeting would be a good time for a family cookout so our families could meet each other and share our passion for flying. After the meeting we set up the grill and started cooking and serving the great food provided by our members and wives. There was not only a big variety of food but lots of it. Nobody went home hungry that day. It was a beautiful day for the most part except for a short rain shower but that didn't dampen anyone's appetite. It was great to meet everyone's family. We hope to have more family activities in the future.

GETTING ULTRALIGHT FLIGHT TRAINING

Finding a BFI for ultralight training is becoming more & more difficult. When I took my training it was in Gardner MA, a drive of over an hour. One of our members learned to fly in Maine and New Jersey. I recently learned of an ultralight pilot in Newport NH who is working on his BFI rating. I found this information through a relative of his and asked to have him let me know when he is certified. When I find more information I will publish it in the newsletter. If anyone else knows of any active instructors please let me know as I get a lot of calls from people looking for BFIs.

That's right, you have to dance for your dinner!

Of course it's good for you.

I'm going shopping. I'll have the plane back in a couple hours.
