May 2004 Newsletter

USUA Club 162

The May meeting was held on 5-2-04. The club decided to make a donation toward a portable toilet for the airport. This will be a welcome addition, especially for people flying in from other locations. Dennis Dobe will do more research on prices and service. Warren Hurd donated a refrigerator so that all who use the airport can have a cold soda or water on those hot summer days. It is now stocked with soda and water. Price will be 75 cents with profits going into the club treasury. It appears that Dennis Dobe was the first member (except for Jeff Smith who flies his Flightstar year round) to dust off the winter storage cobwebs and fly his trike. We all hope to be in the air soon. Dennis is training for his BFI rating so we should have a new instructor for trikes in the club soon. GOOD LUCK DENNIS!

EAA Chapter 1314 had its Annual Fast Day fly in on April 25th. It was a huge success. The weather was perfect with calm winds and cool temperatures. An estimated 40 planes showed up with over 100 pilots registered in the guest book. Hamburgers sold out in no time and many hot dogs were sold. One great part was the variety of planes. There were Kitfoxes, Van's RV's, floatplanes, a Sonex and many others. At noon one runway was closed and a spectacular model plane demonstration was conducted by the Asheulot R C club. Thanks for an entertaining afternoon.
